Service agreement

Helvetia Analytics AG – contract HA-2026-0441

1. Parties

This agreement is concluded between **Helvetia Analytics AG**, Visp, and the Client identified in Annex 1. It governs the qualification and metrology services listed in section 2.

2. Services

The Provider shall perform thermal mapping, airflow measurement and metrology verification according to the protocols agreed in writing for each campaign.

2.1 Reporting. A signed report is issued within ten working days of each campaign.

2.2 Deviations. Any measurement outside the agreed acceptance criteria is reported within 24 hours.

3. Rates

Service	Unit	Rate (CHF)
Thermal mapping	day	1'850
Airflow measurement	day	1'650
Metrology verification	probe	145

4. Term

This agreement runs for twelve months and renews tacitly unless terminated with three months' notice.

5. Liability

The Provider's liability is limited to the fees paid under this agreement in the twelve months preceding the event giving rise to the claim, save for intent and gross negligence.
